

## Composite Shapes Worksheets

Name \_\_\_\_\_

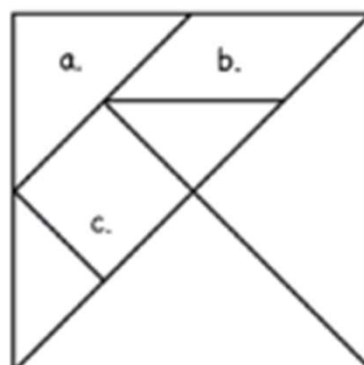

Date \_\_\_\_\_

1. Identify each polygon labeled in the tangram as precisely as possible in the space below.

a. \_\_\_\_\_

b. \_\_\_\_\_

c. \_\_\_\_\_

2. Use the square and the two smallest triangles of your tangram pieces to make the following polygons. Draw them in the space provided.

a. A quadrilateral with 1 pair of parallel sides.	b. A quadrilateral with no square corners.
c. A quadrilateral with 4 square corners.	d. A triangle with 1 square corner.

## Composite Shapes Worksheets

1. Identify each polygon labeled in the tangram as precisely as possible in the space below.

- a. triangle
- b. parallelogram
- c. square

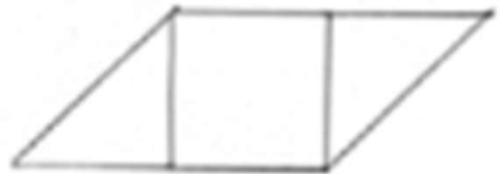

2. Use the square and the two smallest triangles to make the following polygons. Draw them in the space provided.

- a. A quadrilateral with 1 pair of parallel sides.

- b. A quadrilateral with no square corners.

- c. A quadrilateral with 4 square corners.

- d. A triangle with 1 square corner.
