

## Upper Case Letters Worksheets

Trace and copy the letter.

The worksheet consists of five rows of handwriting practice. Each row is defined by a solid top line, a dashed middle line, and a solid bottom line. The first row contains a solid uppercase letter 'C' with a small arrow indicating the counter-clockwise stroke direction, followed by a dotted 'C' for tracing, and two more dotted 'C's for copying. Below the first row, there is a dotted line with a starting dot for independent practice. This pattern of a solid letter, a dotted letter for tracing, two dotted letters for copying, and a dotted line with a starting dot is repeated for the remaining four rows.
