

Multiplication (use Distributive Property)

1. Match the multiplication expressions with their answers.

2. Refer to the array and fill in the blanks to make true number sentences.

$$(7 \times 4) = (5 \times 4) + (2 \times 4)$$

$$= \underline{\quad} + \underline{\quad}$$

$$= \underline{\quad}$$

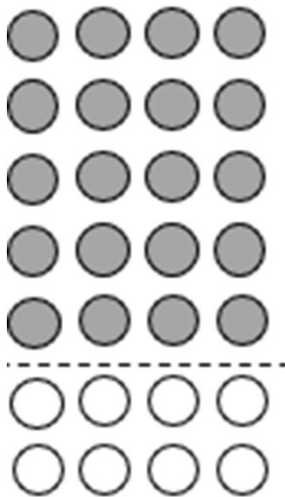

Multiplication (use Distributive Property)

1. Match the multiplication expressions with their answers.

4 × 6 4 × 7 4 × 8 4 × 9

28 32 36 24

2. Refer to the array and fill in the blanks to make true number sentences.

$$(7 \times 4) = (5 \times 4) + (2 \times 4)$$

$$= \underline{20} + \underline{8}$$

$$= \underline{28}$$
