Word Problems (Multiplication)

Solve the following word problems.

1. Isabel earned 350 points while she was playing Blasting Robot. Isabel's mom earned 3 times as many points as Isabel. How many points did Isabel's mom earn?

$$350 \times 3 = 1050 \text{ points}$$

2. To get enough money to go on a field trip, every student in a club has to raise \$53 by selling chocolate bars. There are 9 students in the club. How much money does the club need to raise to go on the fieldtrip?

$$53 \times 9 = \$477$$

3. Mr. Meyers wants to order 4 tablets for his classroom. Each tablet costs \$329. How much will all four tablets cost?

$$329 \times 4 = \$1,316$$
