

## Ordered Pair Worksheets

The first coordinates of the ordered pairs represent the numbers on the line labeled  $x$ , and the second coordinates represent the numbers on the line labeled  $y$ .

1. List the ordered pair of numbers that corresponds with each letter from the grid below.

a. Point  $M$

b. Point  $S$

c. Point  $N$

d. Point  $T$

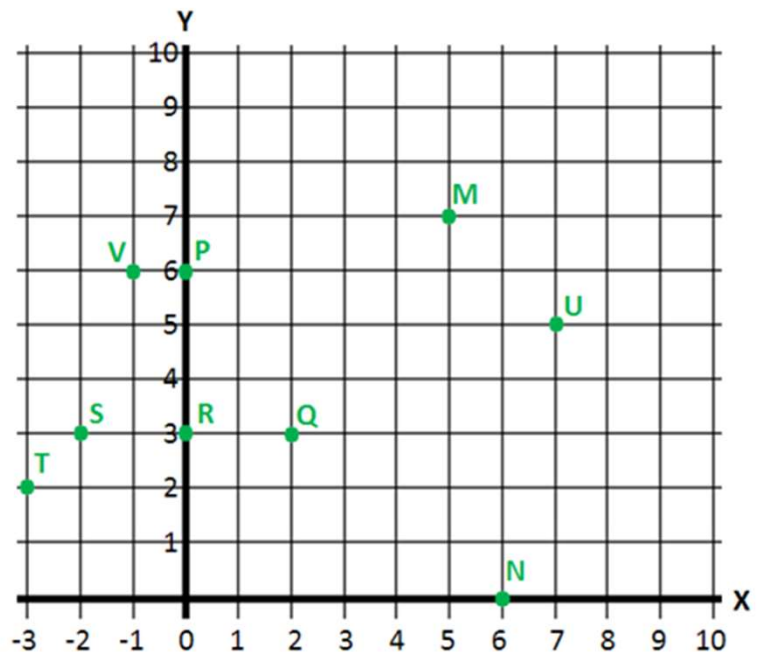

e. Point  $P$

f. Point  $U$

g. Point  $Q$

h. Point  $V$

i. Point  $R$

## Ordered Pair Worksheets

The first coordinates of the ordered pairs represent the numbers on the line labeled  $x$ , and the second coordinates represent the numbers on the line labeled  $y$ .

1. List the ordered pair of numbers that corresponds with each letter from the grid below.

a. Point  $M$   
 $(5, 7)$

b. Point  $S$   
 $(-2, 3)$

c. Point  $N$   
 $(6, 0)$

d. Point  $T$   
 $(-3, 2)$

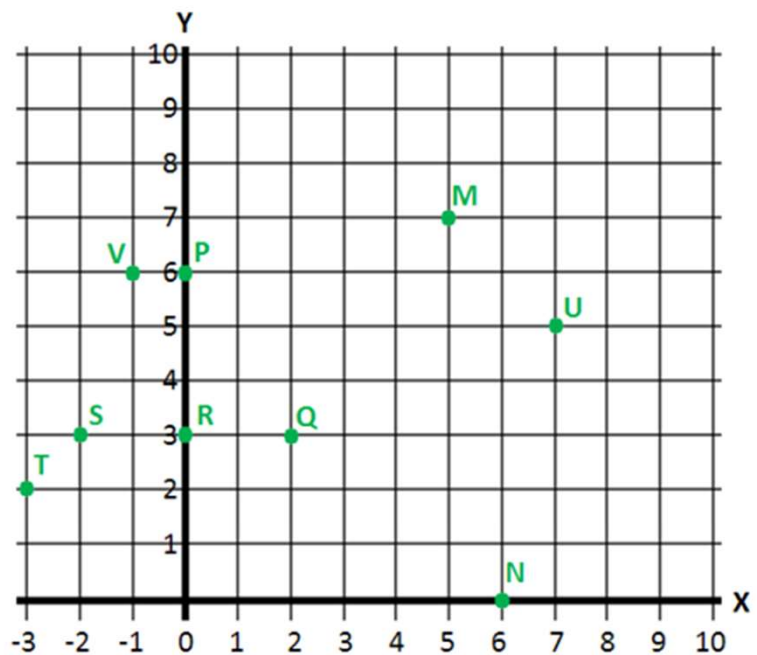

e. Point  $P$   
 $(0, 6)$

f. Point  $U$   
 $(7, 5)$

g. Point  $Q$   
 $(2, 3)$

h. Point  $V$   
 $(-1, 6)$

i. Point  $R$   
 $(0, 3)$
