Surface Area Worksheets

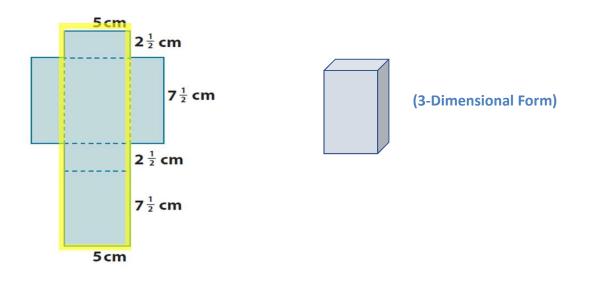

1. For the following net, highlight the perimeter of the lateral area, draw the solid represented by the net, indicate the type of solid, and then find the solid's surface area.

Surface Area Worksheets

1. For the following net, highlight the perimeter of the lateral area, draw the solid represented by the net, indicate the type of solid, and then find the solid's surface area.

SA = LA + 2B $LA = P \cdot h$ $LA = \left(2\frac{1}{2}cm + 7\frac{1}{2}cm + 2\frac{1}{2}cm + 7\frac{1}{2}cm\right) \cdot 5cm$ $B = 2\frac{1}{2}cm \cdot 7\frac{1}{2}cm$ $LA = 20 cm \cdot 5cm$ $B = \frac{5}{2}cm \cdot \frac{15}{2}cm$ $LA = 100 cm^{2}$ $B = \frac{75}{4}cm^{2}$

 $SA = 100 \ cm^2 + 2\left(\frac{75}{4} \ cm^2\right)$ $SA = 100 \ cm^2 + 37.5 \ cm^2$ $SA = 137.5 \ cm^2$

The surface area of the right rectangular prism is $137.5 \ cm^2$
