

Writing Expressions Worksheets

1. Write an expression to show the sum of x and y .
2. Write an expression to show h decreased by 13.
3. Write an expression to show k less than 3.5.
4. Write an expression to show the sum of g and h reduced by 11.
5. Write an expression to show 5 less than y , plus g .
6. Write an expression to show 5 less than the sum of y and g .

Writing Expressions Worksheets

1. Write an expression to show the sum of x and y.

$$x + y \text{ or } y + x$$

2. Write an expression to show h decreased by 13.

$$h - 13$$

3. Write an expression to show k less than 3.5.

$$3.5 - k$$

4. Write an expression to show the sum of g and h reduced by 11.

$$g + h - 11$$

5. Write an expression to show 5 less than y, plus g.

$$y - 5 + g$$

6. Write an expression to show 5 less than the sum of y and g.

$$y + g - 5$$
