

Writing Expressions Worksheets

Write each expression two ways: using the division symbol and as a fraction.

- a) The quotient of 6 and m

$$6 \div m \text{ and } \frac{6}{m}$$

- b) Seven divided by the quantity x plus y

$$7 \div (x + y) \text{ and } \frac{7}{x + y}$$

- c) y divided by the quantity x minus 11

$$y \div (x - 11) \text{ and } \frac{y}{x - 11}$$

- e) The sum of the quantity h and 3 divided by 4

$$(h + 3) \div 4 \text{ and } \frac{h + 3}{4}$$

- f) The quotient of the quantity k minus 10 and m

$$(k - 10) \div m \text{ and } \frac{k - 10}{m}$$
